

Seesaw simple guide

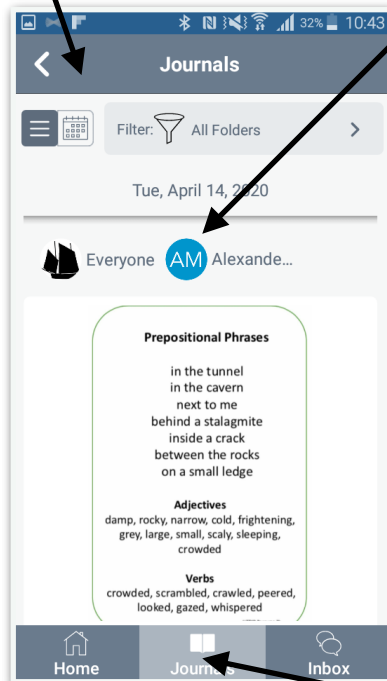

Inbox - This is where you find important messages from the school office and teachers

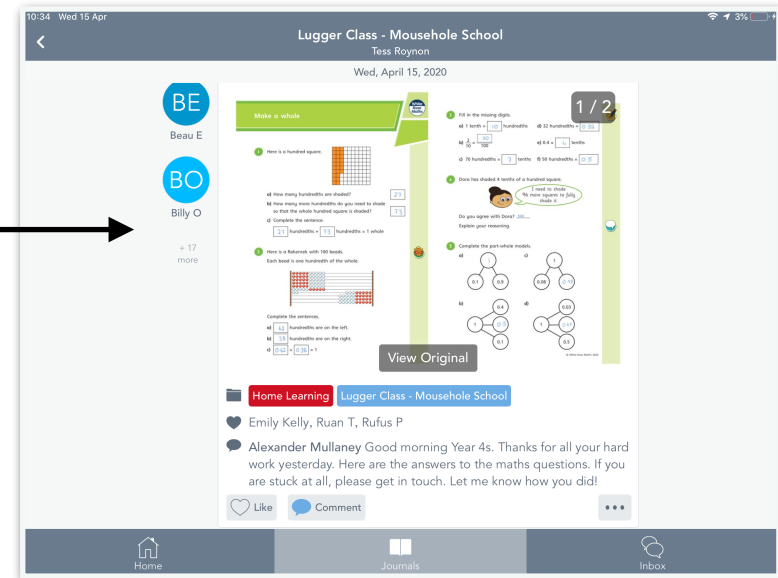

You can use the inbox to message directly to teachers or Mr Roynon (tap Mousehole School). Only you and the member of staff you have messaged will see the messages you send here.

Journal - this is where you find work for children. The journal can be seen by the children.

The diary filter can be quite handy to find things in the journal.

Whose journal is this item in and who can see it. If it says everyone here then that is everyone in the class.

The journal is where you will find all work that is posted for you and your child to see. Each child has their own journal and there is a shared class journal. If you comment in the journal it will be seen by everyone associated with the post (children and adults).

Settings

You can change settings, including how notifications work, by tapping here.
